Hyderabad is proud to host ACECON 2025. The city’s dynamic growth and concrete innovation create opportunities for the next generation of urban infrastructure. Known for its rich cultural heritage and modern tech-driven economy, Hyderabad is now leading the charge in sustainable construction practices and low-carbon concrete solutions. Join us in Hyderabad to experience firsthand how a vibrant city is building a sustainable future through cutting-edge concrete innovations and technologies.

Located at the crossroads of North and South India, Hyderabad has developed a unique culture reflected in its language and architecture.

Hyderabad has a unique combination of a tropical wet and dry climate that borders on a hot semi-arid climate.

Hyderabad is a major center for information technology, composites manufacturing, biotechnology, the pharmaceutical industry, and infrastructure development.

Hyderabad offers excellent connectivity by air to several south-Asian and European countries and all cities in India
