ABOUT THE EVENT

The Hyderabad Centre of the Indian Concrete Institute (ICI) is thrilled to announce the 6th Asian conference on Ecstasy in Concrete (ACECON 2025). Building on the success of ACECON Conferences in Bengaluru (2000), Mumbai (2005), Chennai (2010), Kolkata (2015), and Delhi (2022), the excitement continues with the 6th ACECON on “Concrete Innovations- Exploring Tomorrow’s Frontiers”

India’s city’s dynamic growth and concrete innovation create opportunities for the next generation urban infrastructure. Known for its rich cultural heritage and modern techdriven economy, Hyderabad is now leading the charge in sustainable construction practices and low-carbon concrete solutions. Join us in Hyderabad to experience first-hand how this vibrant city is building a sustainable future through cutting-edge concrete innovations and technologies.

ABOUT ICI

The India Concrete Institute (ICI) stands as a colossal force in the Indian professional landscape, and as a leading body empowering individuals and organizations deeply invested in the world of concrete. As a non-profit organization, ICI is relentlessly focused on spreading the knowledge about concrete, championing advancements in concrete technology and constructions, and fueling crucial research endeavors. From humble beginning in 1982 with just 500 members across 5 regional centers, ICI has exploded onto the scene. Today, it's a thriving community of over 15,000+ passionate members representing every facet of the concrete industry.

With 50 regional centers strategically located nationwide, ICI's reach is truly immense, boasting over 376 dedicated organizational members. These regional centers are the sources of activity, constantly hosting dynamic events like seminars, workshops, conferences, exhibitions, and "Deminars" - a unique blend of demonstrations and seminars - throughout the year, both Nationally and Internationally. These gatherings are invaluable platforms, bringing together practicing engineers, manufacturers, academicians, consultants, and researchers to exchange insights, share experiences, and collectively elevate their understanding of concrete

Beyond fostering connections, ICI is committed to practical education. ICI offers tailored training programs for industry professionals and actively engages civil engineering students through its dedicated student chapters, bridging the gap between academia and real - world application, ultimately boosting their career readiness. ICI is also a global connector, forging partnerships with international peers to share cutting-edge technology and best practices, while collaborating with government bodies to champion sustainable construction. The Institute's Technical Board is a driving force, with its committee's regularly producing vital technical documents that serve as indispensable resources for practitioners and stakeholders across the industry.

THEMES

- Green solutions in concrete structures
- Advances in concrete technology
- 3D printing - challenges and future prospects
- Precast and prestressed concrete
- Bridges and concrete pavements
- Carbon neutral or net zero carbon
- Aesthetics and architectural forms of concrete structures
- Repair and rehabilitation
- Structural health monitoring and life assessment of concrete structures
- Application of AI & ML in concrete structures
- Durability of concrete structures
- Special concrete structures (airports, tunnels, nuclear structures and ports)
- Earthquake resistance concrete structure

IMPORTANT DATES

- Submission of Full Paper- 26th October 2025
- Camera ready Paper- 15th November 2025
- Selected papers will be considered for publication in an Indexed Refereed Conference Proceedings by Springer

PATRONS

Er. P. Gangopadhyay
(Chief Patron, Imm. Past President ICI)
Dr. V. Ramachandra (President ICI)
Er. Manoj Kawalkar (President-Elect ICI)
Er. R. Radhakrishnan (Secretary General ICI)

INTERNATIONAL ADVISORY COMMITTEE

Prof. S.P. Shah (University of Texas at Arlington, USA)	Prof. Pat Rajeev (Swinburne University, USA)
Prof. Caijun Shi (Hunan University, China)	Prof. Prasad Rangaraju (Clemson University, USA)
Prof. Nemy Banthia (University of British Columbia, Canada)	Prof. Sriram Narasimhan (University of California at Los Angeles, USA)
Prof. Venkatesh Kodur (Michigan State University, USA)	Prof. Prannoy Suraneni (University of Miami, USA)

ABOUT HYDERABAD

Hyderabad, the capital of Telangana, is a city where history and modernity coexist in harmony. Known as the “City of Pearls,” Hyderabad boasts a rich cultural heritage that dates back to its founding in 1591 by Muhammad Quli Qutb Shah. The city is home to architectural marvels like the Charminar, Golconda Fort, and the Qutb Shahi Tombs, which reflect its glorious past under the Qutb Shahi and later the Asaf Jahi (Nizam) dynasties. Its vibrant culture is also evident in its traditional arts, cuisine—especially the world-famous Hyderabadi biryani—and the Urdu language and literature.

In recent decades, Hyderabad has emerged as a major hub of modern infrastructure and technology. The city is a key IT and innovation center, often referred to as “Cyberabad” due to the presence of numerous global tech giants in areas like HITEC City and Gachibowli. The development of an extensive road network, metro rail, Outer Ring Road, and Rajiv Gandhi International Airport has transformed the city into one of India’s most well-connected and fastest-growing urban centers.

This unique blend of cultural richness and progressive development makes Hyderabad a truly dynamic and globally relevant city.

SUGGESTED MEANS OF TRANSPORT

- Nearest Airport: Rajiv Gandhi International Airport, Shamshabad, Hyderabad
- Nearest Railway Station: Secunderabad Railway Station, Kachiguda Railway Station
- Nearest Metro: Errammanzil Metro
