About The Conference

International Conference on “Asian Scenario on Infrastructural Development” ASID 2026

The construction industry and infrastructure development in Asia Pacific and India in particular is seeing a paradigm shift with various new projects being conceptualised across this part of the world. The projects are required to keep pace with the advances in construction technologies, materials, epic size of the projects and influx of modern construction trends in recent years.

The intent of this event is to get all the stakeholders viz Industry Experts, Professionals, Academia, Construction Business Experts, Specialists from the Centres of Excellence etc on a single platform and have an intense brainstorming amongst them to come up with new ideas and modern trends for the betterment of the construction industry. The event will also provide an interactive platform to the attendees for technological discussions, interactions with industry experts, network with the top players of the Construction Industry and form mutually beneficial collaborations with the like minded individuals from the construction arena.

Theme

- Global Challenges for Sustainable Infrastructure.
- Transportation projects.
- Water Resources & Environmental Projects.
- High-rise Buildings.
- Smart Materials & Innovative Design.
- QA/QC techniques
- Forensic Engineering & Health monitoring.
- Urban Policies.
- Automation and Mechanisation.
- Durability Performance Requirements.
- New technologies, methodologies & practices.

About ICI

ICI was founded in 1982 with its Headquarters at Chennai. Indian Concrete Institute (ICI) is a premier professional body for concrete technology with more than 15,000 members spread over 50 centers and over 350 student chapters across India. ICI spreads across Construction Industry, Building Material manufacturers, Leading Consultants & Civil Engineers, Contractors, Academicians and Educational Institutions.

The objectives of ICI are

- To promote growth of concrete constructions and its sub-specializations.
- To disseminate information & to arrange to train personnel for the needs of changing concepts in the technology.
- To collaborate with national and international agencies in creating better understanding of concrete construction technology.
- To identify R & D opportunity of practical relevance to concrete construction technology. To institute awards for outstanding achievements in concrete construction technology.
- To organize periodical seminars and exhibitions on the new subject.
- To organize annual lecture series on selected topics of relevance to concrete constructions.
- It is a National Institute working with the motto “Progress through Knowledge” & retains its basic mission to develop, share & disseminate knowledge & information needed to utilize concrete to its fullest potential.

ABOUT NAGPUR

Nagpur, popularly known as the “Orange City of India”, is one of the fastest-growing cities in central India and a major hub for infrastructure and construction development. It serves as the geographical center of India, making it a strategic location for national-level conferences and industry gatherings.

ABOUT ICI NAGPUR, CENTRE

The Indian Concrete Institute, Nagpur Centre (ICI-NC), is one of the most dynamic and high-performing centres at the national level. The centre has been honoured with the prestigious Best Centre National Award in 2007, 2024, 2025 and 2026, reflecting its consistent excellence in organizing high quality technical programs for concrete professionals, academicians, and students.

A significant milestone in the growth of ICI Nagpur Centre was becoming the first centre in India to establish its own dedicated office and Technology Centre. This achievement demonstrates the centre’s strong commitment to institutional development and technical advancement.

ICI Nagpur Centre plays a vital role in nurturing future engineers by actively disseminating technical knowledge among student chapters. Through its flagship Pinnacle Talks, workshops, short-term training programs, and technical visits, the centre effectively bridges the gap between academia and industry.

Another innovative initiative of ICI Nagpur Centre is ICI Fest. This annual event provides a unique platform for students to showcase their technical skills, creativity, and practical knowledge. Every year, ICI Fest is organized at a different student chapter, encouraging wide participation and healthy competition among engineering students. To recognize and motivate excellence, ICI Nagpur Centre awards cash prizes and certificates to the winners.

A landmark achievement of the centre was the successful organization of ASID 2023, inaugurated by **Hon'ble Shri Nitinji Gadkari**. The event witnessed participation from more than 700 delegates and featured around 20 internationally acclaimed speakers. A highly appreciated technical exhibition further enriched the event, making it a truly global platform for knowledge exchange in the infrastructure industry.

PROMINENT SPEAKERS

Prof. Mahesh Tandon
Chairman Tandon Consultants,
New Delhi

Dr. Stephen Foster
Honorary President, (fib)
Sydney

Er. V. R. Kulkarni
Past President ICI

Er. Jose Kurian
Past President ICI,
Principal Project Advisor KIIFB

Dr. Manamohan R. Kalgil
President, Structural Engineers
World Congress (India) & Past President ICI

Dr. Pradeep Ramacharala
Director CBRI

Dr. Voo Yen Lei
Co-Founder DURA

Prof. Manu Santhanam
IIT Madras

Prof. Anurag Mishra
Director NIT Srinagar

Prof. KVL Subramaniam
IIT Hyderabad

Er. Nilotpal Kar
Director
MD - Sika India

Dr. Lakshmana Rao
Vice President - TAI
GM - (Engg. & Design)
AFCONS Infrastructure Limited

Er. Florian Krenn
Managing Director at
Geoconsult India, Gurgaon

Er. Umberto Rico
APAC Regional Product Manager
Itlay
